about the company

Established in the year 2007, we Crystal Packaging Industries are one of the distinguished names engaged in manufacturing and supplying a wide range of caps and bottles. These are manufactured using quality tested polymers, procured from reliable vendors. Available in various shapes and sizes, our range is custom design to meet the requirements of various pharmaceutical and cosmetic industries.

We have developed a technologically advanced infrastructure unit sprawling over a wide area of 10,000 SQ feet to conduct an uninterrupted process of production. Presently, we have established well-equipped factories to manufacture various designs of bottles and caps. Our CAD and CAM facility enables us to process the demands of plastic mouldings, processing and packaging within the shortest possible time. Further, with the help of our dedicated and hardworking team members, we have been able to custom design our range in accordance with the latest trend prevailing in the market. The well-developed warehousing and packaging facilities help us to ensure the safest and timely delivery of products to the client's destination. We pack our entire products in quality packaging material like virgin polythene bags and cartons.

Besides providing quality products and services, we also participate in various trade shows like Plastindia to know the specific requirements of our valued clients. Our facilities to offer free samples and OE & private labelling have helped us to create a niche for ourselves, thus helping us to create a strong client base across the domestic market.

Quality Assurance

Quality has always been a prime area of concern for us. We strictly adhere to the international quality standards and ensure that the entire range is manufactured in accordance with the set industry norms. Stringent quality checking throughout the manufacturing process conforms that our product range stands perfect on quality standards. The facility of quality testing being done by our technicians helps us to offer defect free and flawless product to our clients.

Some of our quality testing parameters include:

- ✓ Water portability test
- ✓ Temperature resistance tests
- ✓ Surface finish tests
- ✓ Design, shape & dimension tests
- ✓ Leakage test

CRYSTAL

PACKAGING INDUSTRIES

why us ?

Owing to availability of our range in different shape,size and design these are widely demanded by various industries.

Some of the other reasons that have helped us to be a favoured choice among the clients include:

- ✓ Quality assured range of products
- ✓ Well-developed manufacturing unit
- ✓ Team of efficient professionals
- ✓ Adherence with stringent quality norms
- ✓ Compliance with timely delivery

Infrastructure

We have developed a state of the art infrastructure scattered over an area of 10,000 S.Q feet. Our manufacturing unit is well equipped with CAD & CAM facilities to design and manufacture various designs of our products within a shortest period of time. Presently, we have one factory with an installed capacity of 830 MT/PA, thus helping us to cater to the bulk orders of our clients within the stipulated time period. Further, we have segregated our infrastructure unit into various departments consisting of production, quality assurance, marketing and client servicing so as to ensure optimum utilization of resources with any wastage.

Some of the important machines installed at our manufacturing unit include:

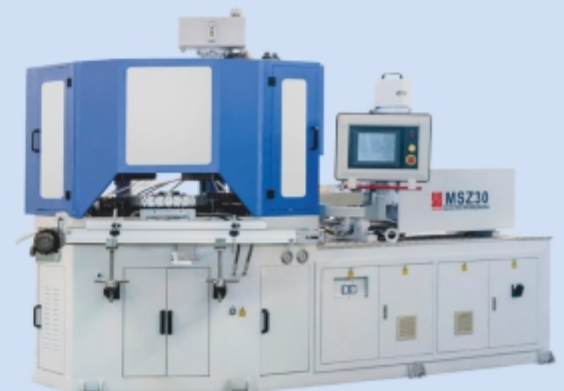

BLOW MOULDING MACHINES (MAKE OF CENTRAL MACHINERY)

- ✓ ONE MACHINE -1000 ML H/2 (SINGLE HEAD DOUBLE STATION)
- ✓ ONE MACHINE 500 ML H/2 (SINGLE HEAD DOUBLE STATION)
